# Easy Grill Scraper™

The Easy Grill Scraper™ was designed to make the job of scraping the baked-on carbon off a grill as fast and easy as possible -- helping ensure the job not only gets done, but that it gets done well.

A special, comfortable, ergonomic shape helps put more pressure on the blade, with less effort. Plus the stainless steel blade is designed to hold it's edge longer for more effective long term performance.

Built to last, the Easy Grill Scraper is constructed of heavy duty cast aluminum and stainless steel. The blade is easily user replaceable.
